**Light the tinder with a match, add sparks**

**When a small fire is started add kindling  
leaving room for air to flow**

**Now the fire is burning brightly**

**Completed Edible Fire!**

**With a real fire, when done the fire bucket would be used to put out the fire  
and the rake or shovel would be used to stir it up until cold to the touch.  
However, in this case just eat the fire and drink from the fire bucket  
and leave a clean fire area!**
