

HOLIDAY GAME - OPEN ME FIRST

You need:

A Jacket

A scarf

A pair of gloves

A spoon

A butter knife

A wrapped package with a treat/gift inside

2 dice

The object of the game is for each girl to open the package using only the spoon and the butter knife (no hands) and the girl who gets the package open gets to keep the special treat/gift inside. Now to make it a little more challenging, the girl must put on the jacket, the scarf, and the pair of gloves before picking up the spoon and knife and beginning to open the package. The girl to her right is rolling the dice the entire time that the opener is getting all of the clothes on and trying to open the package, when the roller gets doubles, she yells out doubles and the opener must stop, the roller begins grabbing clothes off of the opener and begins her turn, while the girl to her left begins rolling the dice.

After the girls each take a turn, and you arrive at the original opener, you (the leader) take away one clothing item (such as the jacket). You continue taking away a clothing item each time you arrive at the original opener. Keep going until someone gets the treat/gift.
