

# Navigate COLORADO

Colorado is the eighth-largest state in the U.S., measuring 380 miles east to west and 280 miles north to south. Yes, that's more than 100,000 total square miles to explore. Luckily, with so much to see and do, Colorado is very easy to navigate. On the facing page, we've divided the state into seven travel regions to help you plan your trip. See the itineraries that start on page 66 for ideas on things to do in each region.

If you already know exactly where you want to go, use the list below to locate a specific city or town.
