Road Conditions Change Rapidly
 Most roads are unsurfaced and irregularly maintained. Soft sand, deep ruts and washouts are common and high clearance or four-wheel drive may be necessary. Never drive beyond the limits of the vehicle. Clay-based roads become impassable when wet. Weather conditions can render some roads impassable for days. Do not attempt to drive across flooded wash crossings. In case of mechanical breakdown, stay with the vehicle. Always have one, preferably two, full size spare tires, a jack, a toolkit, and a shovel. Contact a Monument Visitor Center for current backcountry road conditions.

Backcountry Travel
 This map is provided for general auto touring guidance and is not intended for back-country travel or navigation. For back-country travel, obtain a 1:24,000 (7.5 minute) topographic map of the area. Moderate to advanced map and compass skills are also recommended for traveling in the back-country. For maps, travel route, and updated road information, contact a GSENM Visitor Center (435) 826-5499.

Leave No Trace

See individual geo-referenced map of Hole-in-the-Rock Road for more details.

RESPECT PROTECT
 How can you Respect and Protect Wolverine Petrified Forest?
 While hobby collecting of petrified wood is permitted on some BLM land, it is prohibited in Grand Staircase-Escalante National Monument.
 Please show RESPECT by not picking up or removing any petrified wood. PROTECT the opportunity for future visitors to see the same fossil forest you see now.
 Photography is encouraged.

High clearance vehicles are recommended for Cottonwood Road.

See individual geo-referenced map of Skutumpah/Johnson Canyon Road for more details.

See individual geo-referenced map of Cottonwood Road Scenic Backway for more details.

High clearance vehicles are recommended for Cottonwood Road.
